SKILLS

Proficient in Testing & Debugging

Cybersecurity Fundamentals

Java & Spring Framework

JavaScript & React

C++

Full-stack Development

Mobile App Development

SQL Database Management

UI/UX Design

Foundations in Artificial Intelligence

Collaborative Team Player

Strong Communication Skills

PROFESSIONAL SUMMARY

As an upcoming Software Engineering graduate with a strong foundation in full-stack development, I specialize in Java (Spring) and JavaScript (React). My academic journey and hands-on projects have deepened my understanding of cybersecurity and artificial intelligence, areas in which I have developed a profound interest.

I have successfully designed and implemented secure and user-centric web and mobile applications, demonstrating my commitment to robust system architecture and data security. Poised to further my education with a Master's in Computer Science, focusing on Big Data Systems, I am eager to leverage my technical acumen and innovative problem-solving abilities in a dynamic software engineering role. My ambition is to make significant contributions to a progressive team while continuously advancing my technical skills and industry impact.

EMPLOYMENT HISTORY

Teaching Assistant, Arizona State University
Oct 2022 – Dec 2022

- Student support and engagement
- Held review sessions
- Collaboration with faculty
- Content creation and management

EDUCATION

Arizona State University
Bachelor of Science: Software Engineering
May 2021 - July 2024

- Dean's List [Fall 2023, Spring 2023, Spring 2024]
- 3.40 GPA
